

REPORT ON CORPORATE GOVERNANCE

The Directors present the Company's Report on Corporate Governance.

THE COMPANY'S GOVERNANCE PHILOSOPHY

Good corporate governance is a structure and relationship which determine corporate direction and performance by sound management, transparency, accountability and fairness. The corporate governance framework should therefore encourage the efficient use of resources and equally, require accountability for the stewardship of those resources. The aim is to align as nearly as possible the diverse interests of individuals, corporations and society.

Stone India therefore believes that the key to achieve sustainable long-term growth of the company as well as protecting the most important parties: shareholders, directors and management is sound corporate governance. The concept of corporate governance is entering a phase of global convergence. The driver behind this is the recognition that companies need to attract and protect all stakeholders, especially investors – both domestic and foreign. Global capital seeks its own equilibrium and naturally flows to where it is best protected and bypasses where protection is limited or non-existent. Stone India acknowledges that the company stands to gain by adopting systems that bolster investor trust through transparency, accountability and fairness.

The tide of regulation has risen to a high watermark and while there is compelling evidence of financial benefits to companies which adopt good governance practices, it has often been felt that the ethos of corporate governance still needs to sink in. Corporate irregularities continue to plague investors as regulators relentlessly strive to cleanse the system. Financial scandals often prompt an overhaul of regulation. But the efficacy of regulation can get negated when compliance becomes a box-ticking exercise with prohibitive costs. Again, there is no single model of good corporate governance. Principles, values and ethics cannot be typecast into a universal one-size-fits-all framework. Towards this end the company has a well laid out documents with respect to “**Code of Business Conduct & Ethics**” and “**Whistle Blower Policy**”. All employees abide by them in letter & spirit.

Stone India within its web of relationships with its borrowers, shareholders and other stakeholders has always maintained its fundamental principles of corporate governance – that of integrity, transparency and fairness. For Stone India, corporate governance is a continuous journey, seeking to provide an enabling environment to harmonise the goals of maximising shareholder value and maintaining a customer centric focus.

Stone India maintains that efforts to institutionalise corporate governance practices cannot solely rest upon adherence to a regulatory framework. Stone India's corporate governance compass has been its newly adopted business practices, its values and personal beliefs, reflected in the actions of each of its employees.

Stone India believes that while an effective policy on Corporate Governance must provide appropriate empowerment to the executive management, it must also create a mechanism of internal controls to ensure that the powers vested in the executive management are properly used with appropriate consideration and responsibility so as to fulfill the objectives of the Company.

The Board of Directors fully support and endorse corporate governance practices as per the provisions of the listing agreements as applicable from time to time

THE GOVERNANCE STRUCTURE

The Corporate Governance structure in Stone India is based on an effective independent Board, the separation of the Board's supervisory role from the executive management and the constitution of Board Committees, comprising a majority of independent Directors and chaired by an independent Director to oversee critical areas.
